

# Student Design Charrette

November 4-6, 2015 - Mountain View California

---

## Announcing the first annual Student Design Charrette

It is with great pleasure that we invite you to participate in the Student Design Charrette for the Podcar City Conference on Wednesday, November 4, 2015 in Silicon Valley, California. The Podcar City Conference is an annual conference where students and professionals are educated on the architectural, engineering, social, and technology aspects of Podcars.

The Student Design Charrette is composed so students can showcase their skills and expertise in architecture, engineering, urban planning, business, and technology. Students will either be placed into teams of five or are allowed to show up in teams of five where they will work all day to find an architectural or engineering based design solution.

The all-day architectural design challenge deals with how cities would incorporate Podcars in their current surroundings. The engineering design challenge deals with how the Podcar would be designed and how it would flow on the track.

The student cost to attend the conference is \$15 per day (Conference dinner is optional and \$100). At least one day registration is required. That \$15 will get a student into the conference and the Student Design Charrette.

**Please register before September 30 so we can plan for your presence. Pizza and drinks will be provided. Further instructions will come to those who register as a student on this website.**

Winning teams will receive award certificates, be posted on the PODCAR and ATRA websites, receive public recognition in front of possible employers, and much more. The winners of the event will be notified within 24 hours of the Wednesday design charrette to be publicly awarded on the last day of the conference, Friday, November 6. All of the activities of the Design Charrette will also be presented at the conference on Friday, November 06, 2015.
